Global Updates – April, 2026

Holostik Elevates Security Label Production with 12-Color ZJR-350G

To meet growing demand for high-security, multi-process labels, Holostik India has installed a fully customized 12-color ZJR-350G flexo press. This installation marks the latest step in a long-term partnership, with over 40 WEIGANG machines installed at Holostik over the past 24 years.

Engineered with full compatibility to existing tooling, the solution protects previous investments while enabling wider web production and advanced automation. With dual cold foil units, precision inspection, and optimized material handling, the press supports high-efficiency production of complex security labels – combining performance, sustainability, and long-term ROI.

More global projects coming soon

Global Installations

- Italy – ZJR-350G enhances multi-process label production with integrated finishing.
- Canada – Customized ZJR-450G delivers flexible solutions for multi-material applications.
- China – ZX-320G supports fast-turnaround logistics label production.
- Russia – A second Weigang offset press was installed in a production setup alongside the existing flexo platform.

Partner Development

Training Completed for Jetrix Technician

WEIGANG completed an intensive technical training program for Jetrix, our exclusive partner in Mexico.

From machine setup to advanced applications, the program ensures stronger local service capability and faster response to customer needs.

Customer Successful Story

16 Years. 12 Machines. One Trusted Partner

Portuguese label converter RCM has built its growth on a long-term partnership with WEIGANG.

From the first machine in 2009 to a fleet of 12 presses today, reliability and consistent performance have enabled expansion into high-value applications.

"WEIGANG gives me confidence and reliability. I don't see myself changing to another supplier." Says the founder of RCM, Rodrigo Moça.
